**Subject:** Test Message - Muhimbi SharePoint PDF Converter and Audit Webcasts

## SharePoint PDF & Audit Webcasts

It has been a rather busy start to the new year for Muhimbi with the release of new versions of our popular SharePoint solutions, including the [SharePoint Audit Suite](#), [PDF Converter for SharePoint](#) as well as the [URL Shortener for SharePoint](#).

Read on for more details about all new releases, using the PDF converter in Windows Azure based environments as well as upcoming webcasts.

### SharePoint Audit Suite 2.0 Webcast - April 7

In these days of WikiLeaks and strict regulatory requirements, it is essential to be able to track who have viewed, added, updated or deleted content in your SharePoint sites. The [Muhimbi Audit Suite](#) makes this easier than ever by building on top of SharePoint's existing auditing abilities and filling in the many gaps and shortcomings associated with Microsoft's platform.

In the upcoming webcast we'll show what is new in the 2.0 release, including SharePoint 2010 compatibility, enriched audit data, automatic truncating of audit logs, tracking of authentication events and even field level data changes.

### Testimonials

*Ok... so THAT was ridiculously easy!!! This software is turning out to be a better investment each day!*

(S. Lloyd)

*Customer Support is friendly and efficient. Very fast to respond.*

(S. Teel)

*I just want to thank you for your help with this project, you are enabling us to react quickly to a very demanding client.*

existing customers. However, we have even more surprises up our sleeve so please join our webcast to see what else is in store for the upcoming release.

Anyone interested in [InfoPath](#) & [AutoCAD](#) conversion, or complex watermarking scenarios, should definitely sign up. However, if your needs are more modest then this webcast will be of interest as well as we cover all the basics including conversion of more traditional file formats using Nintex Workflow, SharePoint designer and the regular SharePoint user interface.

## Using Windows Azure for PDF Conversion

Although we target our [PDF Conversion Services](#) to any Web Services capable environment such as Java and .net, our customers keep surprising us with interesting scenarios. We know of customers who access the converter from their *IBM mainframe*, *Documentum* as well as *SAP*, but the first reports are trickling in about using it from *Windows Azure* ('The Cloud') as well.

#### [More about Azure and the PDF Conversion Services.](#)

## Nintex Technology Partner

Although we have no exact figures, based on conversations with our customers it is clear that Nintex Workflow is the number 1 third party workflow environment for the SharePoint platform. As we are increasingly dealing with Nintex based scenarios, particularly in combination with our [Nintex compatible PDF Converter for SharePoint](#), we have formalised our partnership with Nintex and are now an [official Nintex Technology Partner](#).

*Really solid offering. Does what it is supposed to do. Very good integration with SharePoint, also has a very powerful web services API.*

(T. Shab)

*This not only works well, but was a perfect fit. After our purchase a new version was released adding even greater functionality.*

(K. Lucier)

*I have conducted an extensive online research for PDF converters. Nothing came close to the FUNCTIONALITY / PRICE rate as Muhimbi..*

(oleposya)

*Our company had a need to convert a browser-enabled InfoPath form to a PDF to maintain a permanent copy of the submitted form. We wanted to do this without programming. We had done a lot of research and found Muhimbi to be the best and were well pleased with the price.*

(B Coleson)

*I have been installing 3rd party software all day. Your instructions and way of installing are the BEST, Outstanding, Very clear!!*

(M. Sharif)

*I am extremely impressed at the level of support that you have been giving the team.*

(S. Martin)

*This is great! I've only been looking at it for a few hours but it's simple to use and it works.*

(B. Covell)

*If you are looking for a software solution like this then you won't find any better.*

(P. Pike)

## How our software is licensed

To make it easier to decide which license you need, we have written an article - in plain English - about how it works. It even contains a fancy diagram to keep you from nodding off. All joking aside, it is important to get this right so [click here for more information](#).

## Book a demonstration

If you would like to see our solutions in action in a private session then please contact [support@muhimbi.com](mailto:support@muhimbi.com) to schedule a 30 minute web based meeting for you and your team.

## We need your vote!

We talk to our customers a lot, and one thing is clear, they all love our solutions and particularly appreciate our level of support (*Where else do you get a real answer within 15 minutes?*). If you wish to do something back for our team, then please vote for the 'PDF Converter for SharePoint' as best SharePoint application. It is listed under category #10.
